- ▶ Easy fit: Just a 6mm Alan Key required. These kits have factory finished swivel hose ends which are self-aligning and stress free.
- ▶ All Powerhose Plus lines are TUV and DOT approved. All hoses are pressure tested in our factory to 1500 PSI for peace of mind.

2. DEALER KITS - Ideal for workshops and busy dealers!

- ▶ The one system that fits all: With our application guide and a stock of parts included in our Dealer kits you can equip a number of machines with Powerhose Plus from your kit.
- ▶ Simplicity itself: Just look up the required make and model in the application guide, and all the parts needed will be listed under Venhill part numbers which cross reference to part descriptions. For example a 3H0500 hose is a hose 500mm long.
- ▶ Easy stocking and replacement: Dealers can order up hoses and parts, as they are required. You only need to buy what you need as and when you need it.

Powerhose Plus is factory finished hose and is not compatible with the traditional DIY Powerhose listed later in the catalogue.

INNER CABLE

- 7x7 wire rope for applications such as throttle cables (for its flexibility and performance)
- 19 strand cored wire for strength and minimum stretch applications such as brake or clutch cables.
- You may also choose between galvanised steel inner (as used in our universal kits for easy soldering) or stainless steel inner (for the 'Featherlight' specification).

Please note: If you intend to solder nipples onto a stainless steel inner you will need a special silver solder and flux. More information about soldering nipples can be found on our F.A.Q.s page on our website.

LINED OUTER CONDUIT

Our outer casing consists of a steel spiral casing with a commercial PVC sheath extruded over it. Designed to cope with the rigours of motorcycle use, it has flexibility and compression you would expect from the outer used in our ready-made cables.

The conduit is available either with an acetyl liner, allowing you to construct cables to our Superlight specification, or with a Teflon liner, as used in our Featherlight range of cables.
