Workshop
Practice Manual
(2nd Edition)

DKK SEK
 317,- 336,-

The Workshop Practice Manual provides information on how to use

tools and test equipment, carry out minor engineering work and discusses metalworking, welding, painting, plating and polishing techniques to but a few. It also includes essential references information on thread and fastener sizes, fuel ratings, lubricant types and chain sizes.

Varenr./art.nr.:
HAY3471
Motorcycle
Electric Manual
(3rd Edition)

DKK SEK
 317,- 336,-

Tony Tranter is an acknowledged expert on motorcycle electric systems, having pioneered the training of motorcycle

mechanics to City and Guilds standard. His book is now in its third edition and has become standard reading for students attending courses on motorcycle engineering and also for DIY mechanics wishing to unravel the mysteries of electrical systems. This new edition brings coverage right up to date, with additional information on ABS, fuel injection and engine management. Much more information has been included on practical electrical testing and the use of test equipment, plus electrical fault finding.

Varenr./art.nr.:

Motorcycle
Carburettor
Manual

DKK SEK
 317,- 336,-

An exploratory view of the complicated subject of carburation made from a very practical viewpoint.

Apart from dealing with the theory of carburation this manual also describes the tuning procedure for single, twin and multiple carburettor engines, and includes overhaul procedures and the use of tuning aids and equipment.
